

Medi-Cal Program Guide Letter #600

October 12, 2006

Subject	Reexamination of Cases Where Human Immunodeficiency Virus Was Involved in the Final Disability Decision
Effective Date	Upon receipt
Reference	ACWDL 06-22
Purpose	The purpose of this letter is to provide information regarding a change in the reexamination process for cases with Human Immunodeficiency Virus (HIV) involvement.
Background	Federal regulations exempt HIV cases from Social Security's Continuing Disability Review process. Based on these federal regulations, State Programs-Disability and Adult Programs Division (SP-DAPD) will also exempt these cases from their reexamination process. This change will affect all HIV disability determinations that have been allowed since January 1, 1991.
Changes	SP-DAPD will notate on the MC 221R (Disability Determination and Transmittal Form) that the case will be exempt from the reexamination process until further notice.
Required Action	Workers must notate in the case comments that no reexamination is required. Workers should be sure to complete the disability information with the Diagnosis of HIV so that the case can be identified later should the regulations change.
Automation Impact	Workers must enter either "HIV-Not Presumptive" or "HIV-Presumptive" in the "Diagnosis" field on the Collect Diagnosis Detail window from the Collect Disability/Medical Conditions Detail window.
